The Make 'n' Bake Story

Make n Bake is a small baking facility employing students with a disability into a School Based Traineeship. Our Trainees are employed to assist within the production of our cookies and enroll to complete a nationally recognised qualification. They receive ongoing tutoring and mentoring support, undertake training in food processing methods and are given the opportunity to obtain essential employability skills. Our Trainees acquire confidence and multiple skills that can transfer into new job opportunities and future pathways when they leave school.
